ANDREAS MANANAS

Ingenieur (Ir.)
MSc | MArch

DETAILS

ADDRESS

Delft
Netherlands

PHONE

+31641678062

EMAIL

andreasmananas@gmail.com

SKILLS

AutoCAD
Autodest Revit
Blender 3D
Rhinoceros
Grasshopper
Adobe Suite
Microsoft Suite
Python
Matlab
ANSYS
FEM

LANGUAGES

Greek, Modern
English

HOBBIES

Playing/listening music
Exercise
Hiking
Gaming

PROFILE

Engineer with academic and professional experience in architecture engineering. Recently graduated with an MSc in Building Technology from TU Delft, specializing in programming parametric and computational design to deliver innovative solutions in the construction sector.

EMPLOYMENT HISTORY

Architect & Vizualization Specialist, Freelancer
Jun 2021 - Present

- Worked mostly in residential construction, providing architectural design work for clients.
- Created visulizations with 3D CAD various software.
- Collaborated with subcontractors and observed construction sites.
- Created 3D models and renderings of a variety of exterior and interior spaces in collaboration with architecture firms

Student Assistant, TU Delft — Delft, Netherlands
Nov 2024 - May 2025

- Guided students through workshops on grasshopper logic and its applications, incorporating tools such as spacechase, ladybug, galapagos and wallacei.

Intern, Oosterhoff - abt — Delft, Netherlands
Jul 2024- Aug 2024

- Worked as a computational designer with focus on structural design and optimization.

Consultant Architect, Despoina D. Zavraka — Thessaloniki, Greece
Jan 2022- Mar 2022

- Took part in the international competition by UIA for the Ancient Theater in Larisa, Greece.
- Participated in the conceptualization and integration of the design.
- Fully responsible for all the 3D work and visualizations.

Intern, Hive Studio — Alexandroupoli, Greece
Jun 2019- Sep 2019

- Worked collaboratively with principal architect.
- Developed, prepared and coordinated presentations with clients.
- Participated in the design process
- Prepared 3D models, visualizations and drawings with various CAD software

EDUCATION

MSc in Architecture, Urbanism & Building Sciences - Building Technology Track | TU Delft — Delft, Netherlands
Sep 2023 - June 2025

- Thesis: Development of topology optimization algorithm to account for process induced anisotropy in 3d printed components with focus on glass structures.

MArch in Architecture Engineering | Aristotle University of Thessaloniki — Thessaloniki, Greece
Sep 2016 - Jul 2022

- Graduated with GPA of 8.85/10
- Master Research Thesis: Architectural Membanes in the Modern Envelope/Facade.
- Master Project Thesis: Design of a student-living environment in the outskirts of Alexandroupolis.

Autodesk Revit Architecture 2019, Autodesk — Thessaloniki, Greece
Nov 2018 - Dec 2018
